**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Woolston on August 25, 2004.

The application has been amended as follows:

In the claims:

Change the status identifiers of claims 47 and 48 from "amended" to --(Currently Amended)--.

***Allowable Subject Matter***

1. Claims 47-48 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor fairly suggest the device as claimed by applicant in particular the prior art of record does not teach the reagent reservoir as claimed in amended claim 47 of applicant's amendment filed August 9, 2004 nor the limitation of claim 48 previously indicated as allowable (see previous office action).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Uffenheimer et al. and Coakley et al. disclose reaction chambers or containers for lyophilized reagents.
